# ProEst + CMiC

Gain new levels of visibility and control on a shared cloud platform.

Accurately forecasting costs can make all the difference between a construction job that makes money and one that doesn't. That's why ProEst and CMiC software were designed to work together: budgets from ProEst flow directly into CMiC, helping you efficiently track, manage and compare actual costs against estimated budgets from beginning to end. Result? Improved accuracy, visibility and control, and better protection for the bottom line.

ProEst®   **CMiC**

Integration Map

ProEst		CMiC
Awarded Projects		**Projects**
Create New Estimate	→	Update Existing Project
Send Cost Codes	→	Create Cost Budget / Create Revenue Budget
Update Database		**Send Update**
Update Material Database	←	Send Updated Material Cost
Import Cost Codes	←	Send Cost Codes

Why ProEst + CMiC integration matters

Having confidence that your data is complete, accurate and up-to-date is an important part of running a successful construction project, but if information resides in unconnected silos—or requires constant re-entry—mistakes can happen. ProEst + CMiC integration changes all that, moving data from the estimating phase to accounting and project management tasks automatically. Not only do you save time and effort, but the accuracy of your project data is virtually guaranteed.

ProEst + CMiC

Gain new levels of visibility and control on a shared cloud platform.

Having a big-picture view of project costs, resources and requirements is the key to closing out more profitable projects, and ProEst + CMiC integration can help make it happen. Over the years, CMiC and ProEst have advanced their integration from a simple, file-based import to an end-to-end web services solution—the key to making faster, better business decisions and keeping projects on track.

Shared Cloud Platform
ProEst + CMiC integration lets you transfer estimate data instantly on an open cloud platform.

Easy-to-Read Graphics
ProEst + CMiC integration provide a seamless user experience with an easy-to-use graphical interface.

Financial Control
ProEst + CMiC integration alerts you to potential cost overruns and budget discrepancies.

Data Consistency
ProEst + CMiC integration helps ensure reliable, error-free data in every phase of the project lifecycle.

Improved Workflows
ProEst + CMiC integration eliminates process bottlenecks, reporting backlogs and information silos.

Project Visibility
ProEst + CMiC integration lets you monitor and manage multiple projects with a central data hub.

Get to know ProEst construction estimating

ProEst provides advanced construction estimating capabilities for leading companies and public sector clients in the United States, Canada and Australia. Our cloud-based platform combines cost estimating, digital takeoffs and bid day analysis in a single powerful solution—a proven way to reduce costs, ensure accuracy and streamline pre-construction workflow.
