Integration Map

### Why it matters.

When your applications don't work together, mistakes can happen. Time can be wasted. And what started out as a profitable job could end up eroding your bottom line. That's why end-to-end integration of the tools you use every day is so important—and why using ProEst + Procore together will give your construction business the competitive advantage you're looking for.

## ESTIMATING INTEGRATION

# ProEst + Procore

Create a single, seamless flow of project data from bid to closeout.

### Cloud-Based Synergy

ProEst + Procore integration offers a single online platform that's easy to access and use.

### Centralized Data

ProEst + Procore integration makes it easy to retrieve, view and share project information.

### Data Accuracy

ProEst + Procore integration eliminates the need to re-enter data, ensuring accuracy.

### High Productivity

ProEst + Procore integration eliminates process bottlenecks and increases efficiency.

### Total Visibility

ProEst + Procore integration offers real-time insight into job status, progress, costs and profitability.

### Real-Time Access

ProEst + Procore integration gives you 24/7/365 access to data from any computer or mobile device.

### One-Click Transfer

ProEst + Procore integration lets you transfer project data automatically when jobs are awarded.

### Unlimited Usage

ProEst + Procore pricing gives you unlimited users, usage and storage for one affordable annual fee.

### About ProEst

ProEst provides advanced construction estimating capabilities for leading companies and public sector clients in the United States, Canada and Australia. Our cloud-based platform combines client management, cost estimating, digital takeoffs and bid day analysis in a single powerful solution—a proven way to reduce costs, ensure accuracy and streamline pre-construction workflow.
