

ESTIMATING INTEGRATION

ProEst + Spectrum

Connect your people, processes and projects with one-click integration.

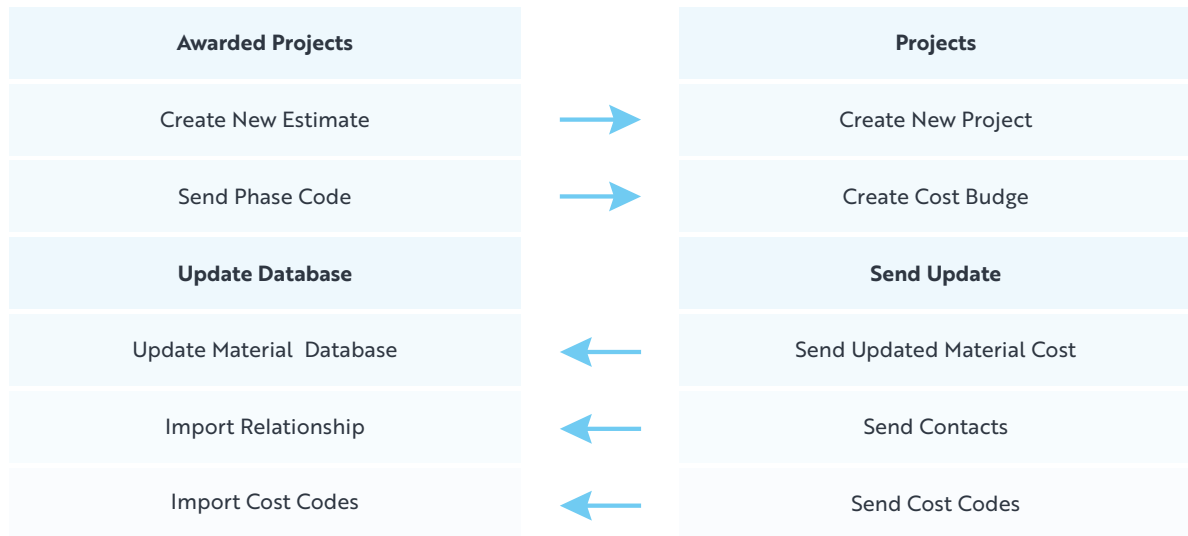

Getting a clear view of your construction projects—no matter how big or complex—just got easier. ProEst and Spectrum work seamlessly together to give you maximum control over your construction jobs, from initial budget through to completion. And with a shared cloud platform, people, projects and processes stay connected, so your jobs stay on time and on budget.

Why ProEst + Spectrum integration Construction matters

Keeping your jobs running smoothly is key to running a profitable construction business, but data silos and process delays can get in the way. ProEst + Spectrum integration breaks down the barriers, moving data from the estimating phase to project management and accounting tasks automatically. Without the need to re-enter and verify information, you save time and effort, and the accuracy of your information is virtually guaranteed.

ESTIMATING INTEGRATION

ProEst + Spectrum

Connect your people, processes and projects with one-click integration.

Getting more done in less time—with higher levels of accuracy—is what ProEst + Spectrum integration is all about. Project data is entered just once, eliminating the need for re-entry, and our shared cloud platform means vital project information is available to your teams 24/7, on site or in the office. That's the kind of productivity your company needs to keep costs low and profits high.

Financial Control

ProEst + Spectrum integration streamlines accounting, HR and payroll, inventory and reporting.

Real-Time Collaboration

ProEst + Spectrum integration lets multiple teams share information and collaborate on key decisions.

24/7 Online Access

ProEst + Spectrum integration gives project stakeholders unlimited access to data anytime, anywhere.

Reduced Risk

ProEst + Spectrum integration helps minimize delays and rework and maintain a stronger bottom line.

Graphical Dashboards

ProEst + Spectrum integration offers easy-to-read dashboards and one-click access to tasks.

Streamlined Operations

ProEst + Spectrum integration lets contractors work in real time, eliminating delays and bottlenecks.

Get to know ProEst construction estimating

ProEst provides advanced construction estimating capabilities for leading companies and public sector clients in the United States, Canada and Australia. Our cloud-based platform combines cost estimating, digital takeoffs and bid day analysis in a single powerful solution—a proven way to reduce costs, ensure accuracy and streamline pre-construction workflow.
